## 14 SUSPENSION OF WORK

### 14.1 GENERAL

#### 14.1.1 Suspension of Work

- 1 If at any time the Contractor is issued with an instruction to stop work by the Engineer for any reported case of serious or imminent Quality violation associated with the Work. On receipt of an Instruction to stop work the Contractor shall suspend works until such time as the necessary remedial action has been taken to alleviate the serious or imminent quality violation and adequate measure put in place to prevent a reoccurrence. The Contractor shall be responsible for the any delay caused due to this Instruction to stop work and will not be entitled to claim an extension of time.
- 2 It is the responsibility of the Contractor to stop work if any unknown or unplanned conditions occur that give rise to serious or imminent quality violations. In such circumstances the Contractor shall assess the risk associated with any remedial work required and to revise the method statements accordingly. The amended method statement shall be reviewed and approved by the Contractor's Quality Manager as appropriate. Revised method statements shall be approved by the Engineer before the recommencement of Work.
- 3 The Contractor shall document Quality violations as per Part 9 of this Section.
- 4 Notwithstanding Part 14.1.1, 1 and 2 above, supervision of work shall be in line with the Contract requirements.
