7 PROTECTIVE OR SHADE COVER SYSTEMS

7.1 GENERAL

7.1.1 Scope

- 1 This Part provides provision for inclusion of special specifications for specialised structures of protective or shade covering systems. It includes items such as awnings, tents, canopies of fabric or membrane materials supported by or stretched over metal, plastic or concrete frames.

7.1.2 General Requirements

- 1 All items in this Part require approval by the Engineer.
- 2 The Contractor shall submit manufacturer's literature, drawings, samples or mock-up units for items covered in this Part for approval by the Engineer.
- 3 If external work items related to this Part are not specified or otherwise detailed within the Project Documentation, the Contractor shall submit appropriate specifications for approval by the Engineer.
